Happy Holidays!

CPYS Welcomes 2008!

We continue to move forward in 2008 with our phase 1 development plans. If you have been out to the site recently, you will have noticed that we have moved all of the dirt for elevation and drainage purposes. The next steps are to put in the sewer lines, water lines and electrical lines in ground.

Our current Goal consist of targeting a Grand Opening in the May 2008 timeframe. We need volunteers for this committee. Please contact Margo Landis @ 841-3659 or Email: margo.l.landis@spiritaero.com if you are interested in joining the committee. This is a great opportunity to get involved with the upcoming activities as we move towards our Grand Opening.

We also have two basic needs that will be a common theme for years, 1) increase our awareness in the community and 2) continue to raise the appropriate funding through our marketing activities.

We are looking for volunteers to help us with implementing our marketing strategy which enhances our recognition of 'What we're doing'. We can use some help with delivering marketing information to selected organizations and companies in this community.

We can also use some help with researching selected foundations for grant opportunities. This amounts to accessing their web sites and providing our grant writing team with a list of information required from us to send in a grant request. Neither one of these activities would take more than 2 or 3 hours a week.

Contact Central Plains youth Sports at www.cpys.org if you are interested in getting involved. Everyone is invited to stop by the site at 29th and Greenwich road to witness the beginning of the future of youth baseball and softball in this community.
